

TempAid designs, validates, and manufactures **premium cold chain packaging** for pharmaceutical, biotech, clinical trial, and life sciences customers worldwide.

With production facilities in Canada, China, and Vietnam, we provide VIP shippers, PCM systems, and insulated mailers backed by **ISTA-certified thermal testing and pre-qualified documentation.**

EarthWise Gel Packs

SAFE TO DRAIN. BUILT TO PERFORM.

The last mile of a pharmaceutical shipment often ends at someone's home. The gel pack inside that box ends up in a kitchen trash can or, ideally, drained into a sink. **TempAid's EarthWise Gel Packs** are formulated so the gel can be safely drained before disposal and the film recycled, reducing packaging waste and making end-of-journey disposal simpler for patients and caregivers.
