Navigating  
**compliance.**  
Delivering  
**confidence.**

TempAid designs, validates, and manufactures **premium cold chain packaging** for pharmaceutical, biotech, clinical trial, and life sciences customers worldwide.

With production facilities in Canada, China, and Vietnam, we provide VIP shippers, PCM systems, and insulated mailers backed by **ISTA-certified thermal testing and pre-qualified documentation.**

# PCM Plates

NO EXPIRY. REUSABLE ACROSS THOUSANDS OF CYCLES.

**PCM Plates** are the thermal engine inside every SteadyPac Cube family solution, and they work just as well in your existing coolers. As the phase change material transitions from solid to liquid, it absorbs heat and holds the exact temperature your payload needs for the full duration of transit. Match the phase to your lane, and you're not fighting the ambient environment, you're working with thermodynamics.
